

Integrating the Healthcare Enterprise

Proposal for New IHE Domain

Integrating the Healthcare Enterprise (IHE) International is an organization that enables users and developers of information technology for healthcare to achieve interoperability of systems through the precise definition of healthcare tasks, the specification of standards-based communication between systems required to support those tasks and the testing of systems to determine that they conform to the specifications. The work is managed by IHE committees and sponsored by various national and international bodies, as described in the IHE Principles of Governance, available at www.ihe.net/governance/.

Each IHE domain is responsible for the development and maintenance of an IHE Technical Framework addressing interoperability in its respective area of healthcare. The list of current active IHE domains is at <http://www.ihe.net/domains/>.

Please complete and submit this online application form. Send the final declaration page, with authorized signature, via email, post or fax to:

IHE International Board Secretariat
c/o RSNA
Informatics Department
820 Jorie Blvd.
Oak Brook, IL 60523
<mailto:ihe@rsna.org>
fax: 630-571-7837

The IHE International Board shall review each application submitted and notify the primary contact regarding approval or rejection of the application within 60 days.

Proposed Domain Information

Rationale

Scope Statement of the proposed domain:

<<Example:

IHE Radiology will address information sharing, workflow and patient care in radiology, including mammography and nuclear medicine. Affected sites, systems and activities include hospital radiology departments, imaging centers, modalities, PACS, RIS, reporting systems, teleradiology, result distribution, etc.>>

Notable interoperability/information sharing problems to be addressed:

Standards likely to be used (optional):

Rationale for creating the new domain (including reasons the proposed work cannot be performed in existing IHE domains):

Interest

IHE Regional/National Committees endorsing creation of the new domain:

IHE Member Organizations expressing interest in participating in the new domain:

Sponsorship

Briefly describe the organization and mission of each of the sponsoring organizations:
