Email: pharmacy@ihe.net

25

Please verify you have the most recent version of this document. See [here](#) for Trial Implementation and Final Text versions and [here](#) for Public Comment versions.

Foreword

30 This is a supplement to the forthcoming IHE Pharmacy Technical Framework. Each supplement undergoes a process of public comment and trial implementation before being incorporated into the volumes of the Technical Frameworks.

This supplement is published on October 23, 2015 for trial implementation and may be available for testing at subsequent IHE Connectathons. The supplement may be amended based on the results of testing. Following successful testing it will be incorporated into the forthcoming
35 Pharmacy Technical Framework. Comments are invited and may be submitted at http://www.ihe.net/Pharmacy_Public_Comments.

This supplement describes changes to the existing technical framework documents.

“Boxed” instructions like the sample below indicate to the Volume Editor how to integrate the relevant section(s) into the relevant Technical Framework volume.

40

<i>Amend Section X.X by the following:</i>
--

Where the amendment adds text, make the added text **bold underline**. Where the amendment removes text, make the removed text **~~bold strikethrough~~**. When entire new sections are added, introduce with editor’s instructions to “add new text” or similar, which for readability are not bolded or underlined.

45

General information about IHE can be found at: <http://www.ihe.net>.

Information about the IHE Pharmacy domain can be found at: http://ihe.net/IHE_Domains.

Information about the organization of IHE Technical Frameworks and Supplements and the process used to create them can be found at: http://ihe.net/IHE_Process and
50 <http://ihe.net/Profiles>.

The current version of the IHE Pharmacy Technical Framework can be found at: http://ihe.net/Technical_Frameworks.

110 Introduction to this Supplement

The Pharmacy Medication List Profile (PML) describes the content and format of a Medication List document generated during a process in which a health care professional (physician, pharmacist, nurse, etc.) requests this information (e.g., to support its prescribing).

115 Documents created according to this profile are intended to be used in the context of the “Community Prescription and Dispense” Integration Profile (CMPD).

This supplement also references other documents¹. The reader should have already read and understood these documents:

1. [PHARM Common parts document](#)
2. [PHARM Community Prescription and Dispense Integration Profile \(CMPD\)](#)
- 120 3. [PCC Technical Framework Volume 1](#)
4. [PCC Technical Framework Volume 2](#)
5. [IT Infrastructure Technical Framework Volume 1](#)
6. [IT Infrastructure Technical Framework Volume 2](#)
7. [IT Infrastructure Technical Framework Volume 3](#)
- 125 8. HL7® and other standards documents referenced in this document

Open Issues and Questions

- Header template “Patient information”: Shall a vocabulary be set (e.g., HL7® Gender list) to be required?

Closed Issues

¹ The first seven documents can be located on the IHE Website at http://www.ihe.net/Technical_Frameworks. The remaining documents can be obtained from their respective publishers.

130 **General Introduction**

Update the following Appendices to the General Introduction as indicated below. Note that these are not appendices to Volume 1.

Appendix A - Actor Summary Definitions

Add the following actors to the IHE Technical Frameworks General Introduction list of Actors:

135 No new actors.

Appendix B - Transaction Summary Definitions

Add the following transactions to the IHE Technical Frameworks General Introduction list of Transactions:

No new transactions.

140 **Glossary**

Add the following glossary terms to the IHE Technical Frameworks General Introduction Glossary:

Glossary Term	Definition
Pharmacy Medication List	A Pharmacy Medication list is a collection of Medication Treatment Plan-, Prescription- and Dispense Items (and their related Pharmaceutical Advice Items) representing the Medication information of the patient at a certain point of time and according to business rules specified.

Volume 1 – Profiles

150

X Pharmacy Medication List Content Profile

The Pharmacy Medication List Profile (PML) describes the content and format of a Medication List document generated during a process in which a health care professional (physician, pharmacist, nurse, etc.) requests this information (e.g., to support its prescribing).

155 Documents created according to this profile are intended to be used in the context of the “Community Prescription and Dispense” Integration Profile (CMPD). The Community Pharmacy Prescription and Dispense workflow includes the stage of requesting the Medication List of a patient by a health care professional (physician, pharmacist, nurse, etc.).

160 A Medication List document is the documentation of the performed determination of the Medication list. It contains a set of Medication Treatment Plan-, Prescription- and/or Dispense Items (and their related Pharmaceutical Advice Items) representing the Medication information of the patient at a certain point of time and according to business rules specified out of scope of this profile.

165 For a detailed overview on the whole Pharmacy domain business processes, please refer to the “Common parts” document, which is accompanying this profile.

X.1 PML Actors, Transactions, and Content Modules

This section defines the actors, transactions, and/or content modules in this profile.

Figure X.1-1 shows the actors directly involved in the PML Profile and the direction that the content is exchanged.

170 A product implementation using this profile must group actors from this profile with actors from a workflow or transport profile to be functional. The grouping of the content module described in this profile to specific actors is described in more detail in the “Required Actor Groupings” section below.

175

Figure X.1-1: PML Actor Diagram

180

Table X.1-1 lists the content module(s) defined in the PML Profile. To claim support with this profile, an actor shall support all required content modules (labeled “R”) and may support optional content modules (labeled “O”).

185

Table X.1-1: PML Profile - Actors and Content Modules

Actors	Content Modules	Optionality	Reference
Content Creator	Pharmacy Medication List 1.3.6.1.4.1.19376.1.9.1.1.5	R	PHARM TF-3: 6.3.1.D
Content Consumer	Pharmacy Medication List 1.3.6.1.4.1.19376.1.9.1.1.5	R	PHARM TF-3: 6.3.1.D

X.1.1 Actor Descriptions and Actor Profile Requirements

190 Most requirements are documented in Transactions (Volume 2) and Content Modules (Volume 3). This section documents any additional requirements on profile’s actors.

X.2 PML Actor Options

Options that may be selected for each actor in this profile, if any, are listed in the Table X.2-1. Dependencies between options when applicable are specified in notes.

195

Table X.2-1: PML - Actors and Options

Actor	Option Name	Reference
Content Consumer	View Option (see Note 1)	PCC TF-2: 3.1.1
	Document Import Option (see Note 1)	PCC TF-2: 3.1.2
	Section Import Option (see Note 1)	PCC TF-2: 3.1.3
	Discrete Data Import Option (see Note 1)	PCC TF-2: 3.1.4
Content Creator	No options defined	

Note 1: The actor shall support at least one of these options.

X.3 PML Required Actor Groupings

200 An actor from this profile (Column 1) shall implement all of the required transactions and/or content modules in this profile *in addition to* all of the transactions required for the grouped actor (Column 2).

205 If this is a content profile, and actors from this profile are grouped with actors from a workflow or transport profile, the Content Bindings reference column references any specifications for mapping data from the content module into data elements from the workflow or transport transactions.

In some cases, required groupings are defined as at least one of an enumerated set of possible actors; this is designated by merging column one into a single cell spanning multiple potential grouped actors. Notes are used to highlight this situation.

210 Section X.5 describes some optional groupings that may be of interest for security considerations and Section X.6 describes some optional groupings in other related profiles, if applicable.

Table X.3-1: PML - Required Actor Groupings

PML Actor	Actor to be grouped with	Reference	Content Bindings Reference
Content Consumer	PHARM Medication Treatment Plan Planner	PHARM TF-1: 4.1.1.2	PHARM TF-3: 6.3.1.D
	PHARM Prescription Placer	PHARM TF-1: 4.1.1.3	PHARM TF-3: 6.3.1.D
	PHARM Pharmaceutical Adviser	PHARM TF-1: 4.1.1.4	PHARM TF-3: 6.3.1.D
	PHARM Medication Dispenser	PHARM TF-1: 4.1.1.5	PHARM TF-3: 6.3.1.D
Content Creator	PHARM Community Pharmacy Manager	PHARM TF-1: 4.1.1.1	PHARM TF-3: 6.3.1.D

X.4 PML Overview

215 X.4.1 Concepts

Not applicable

X.4.2 Use Cases

X.4.2.1 Use Case #1: Request Medication List

Physician requests the information about prescribed and dispensed medication to a patient.

220 X.4.2.1.1 Request Medication List Use Case Description

A patient enters a physician’s office for treatment of an illness requiring the usage of medication. The physician decides to prescribe a new medication but wants to check the patient’s medication status first in order to do medication reconciliation and review.

225 The physician requests the Medication List and receives the document containing all dispenses for a period of time and all prescriptions which are still ready to be dispensed. He also gets all planned medications in order to have an exhaustive view of the medication treatment plan of the patient.

Refer to the Community Pharmacy Prescription and Dispense Integration Profile (CMPD) for detailed use case information.

230 X.4.2.1.2 Request Medication List Process Flow

Pre-conditions:

A Healthcare provider has identified the patient and is ready to retrieve the Medication List.

Main Flow:

- 235
1. Patient visits facility (Registering patient)
 2. Obtain patient's Health ID
 3. Retrieve and Reconcile clinical data
 4. Physical examination
 - 5. Retrieve Medication List and perform Medication Reconciliation and Review**
- 240
6. Prescribe medication

Post-conditions:

The Healthcare provider has got the Medication List to perform a medication reconciliation and review.

245 **X.5 PML Security Considerations**

The security considerations for a content module are dependent upon the security provisions defined by the grouped actor(s).

X.6 PML Cross Profile Considerations

Not applicable

250

Appendices

Appendices A.1 to A.4 are applicable to this profile as described in the “Pharmacy Prescription (PRE)” supplement.

6.3.1.D.5 Pharmacy Medication List (PML) Document Content Module Specification

300 This section specifies the header, section, and entry content modules which comprise the Pharmacy Medication List (PML) Document Content Module, using the Template ID as the key identifier.

Sections that are used according to the definitions in other specifications are identified with the relevant specification document. Additional constraints on vocabulary value sets, not specifically constrained within the section template, are also identified.

305

Table 6.3.1.D.5-1: Pharmacy Medication List (PML) Document Content Module Specification

6.3.1.D.6 PML Conformance and Example

310 CDA® Release 2.0 documents that conform to the requirements of this document content module shall indicate their conformance by the inclusion of the 1.3.6.1.4.1.19376.1.9.1.1.5 XML elements in the header of the document.

A CDA® Document may conform to more than one template. This content module inherits from the PCC TF Medical Document, 1.3.6.1.4.1.19376.1.5.3.1.1.1, content modules and so must conform to the requirements of those templates as well this document specification, Pharmacy Medication List template, 1.3.6.1.4.1.19376.1.9.1.1.5.

A complete example of the Pharmacy Medication List (PML) Document Content Module is available on the IHE ftp server at: ftp://ftp.ihe.net/Pharmacy/Technical_Framework/Demo-Documents/PML.

320 Note that this is an example and is meant to be informative and not normative. This example shows the elements for all of the specified templates.
